

VerbaTask User Manual & Commands Guide

Voice-First AI Retail CRM, Stock Management & Real-Time WhatsApp Parity

- WhatsApp Voice OS
- Bilingual English & Urdu
- Web Dashboard Parity
- Groq Whisper + Qwen-2.5

HOW VERBATASK WORKS (VOICE & NLP PIPELINE)

1. Shopkeeper sends an audio Voice Note or typed text via WhatsApp in English, Urdu, or Roman Urdu.

2. Groq Whisper transcribes speech -> Qwen-2.5 extracts structured intents (Sales, Restocks, Settings, Reports).

3. MongoDB updates stock & financial balances -> WebSockets emit instant telemetry to the Web Dashboard.

4. Edge Neural TTS synthesizes a natural spoken voice note and sends it back to WhatsApp with a text receipt.

QUICK START COMMANDS CHEAT SHEET

Feature / Action	Voice / English Example	Roman Urdu Command	Dashboard Live Result
Log Sale (Voice)	"2 kg sugar cash" "5 rice easypaisa"	"2 chini cash" "5 chawal easypaisa"	Deducts stock, logs sale, emits live order event.
Add Stock (Restock)	"add 50 rice price 300" "restock 10 cooking oil"	"maal aya 20 chini" "20 kilo chawal aaye hain"	Increments inventory, updates price, alerts dashboard.
Set Item Price	"set price rice 320" "price cooking oil 500"	"chini ki price 160" "rate doodh 220"	Updates item selling price and broadcasts live change.
Check Stock	"stock rice" "how much sugar left"	"chini kitni hai" "doodh kitna bacha hai"	Replies with available quantity, unit, and price.
Store Settings	"set name Madina Store" "set location Lahore"	"dukaan ka naam [naam]" "voice on" / "voice off"	Updates profile & toggles spoken voice replies.
Pakistani Banks	"enable easypaisa" "disable jazzcash"	"easypaisa on karo" "jazzcash band karo"	Toggles active digital wallets and bank channels.
PDF Reports	"sales report" "inventory report"	"report" / "hisab report" "kam stock report"	Sends instant downloadable PDF report in chat.

[INFO] INTERACTIVE BUTTONS & GUIDED FLOWS ("order" / "help")

Merchants who prefer tapping buttons over typing can type "order" to browse products and select payment methods via interactive buttons, or type "help" at any moment to see the interactive feature launcher.

English Commands & Operations Guide

Detailed breakdown of all WhatsApp chat commands, syntax variations, and workflows

Category	Commands & Variations	Action & Dashboard Parity
1. Log Sales (Voice & Text)	• Voice: "2 kg sugar cash" • Text: "5 rice easypaisa" • Text: "10 milk jazzcash" • Quick: "chawal" (defaults 1 cash) • Button: "order" (guided picker)	Deducts sold quantity from stock, creates order with unique ID, logs payment channel (Cash, EasyPaisa, JazzCash, SadaPay, etc.), emits WebSocket update, and returns voice note + receipt.
2. Stock Restock & Price Setting	• "add 50 rice price 300" • "maal aya 20 chini" • "set price rice 320" • "price chini 160" • "stock list" or "inventory"	Increments existing stock quantity via cross-lingual fuzzy matching, updates item price/units, or automatically creates a new item if not in inventory. "stock list" displays summary with low-stock warnings.
3. Stock Queries (Item Checks)	• "stock rice" • "rice kitna hai" • "how much sugar left" • "chini kitni hai" • "doodh kitna bacha hai"	Instantly checks live MongoDB inventory for the specific item and replies with available quantity, unit, and price per unit.
4. PDF Reports (Instant Delivery)	• "report" (interactive menu) • "sales report" • "inventory report" • "low stock report" • "expiring report" • "top selling report"	Generates professional multi-page PDF documents and uploads them directly to WhatsApp as downloadable document attachments.
5. Store Settings (Full Parity)	• "profile" or "settings" • "set name [New Name]" • "set location [City]" • "voice on" / "voice off" • "english" / "urdu"	Allows merchants to manage store details without opening a computer. Renames business, changes location, and toggles spoken audio replies.
6. Payment & Pakistani Banks	• "banks" or "payment methods" • "enable easypaisa" • "disable jazzcash" • "enable sadapay" • "enable meezan"	Lists all Pakistani digital wallets and bank channels with active/inactive indicators. Toggles accepted payment methods in sales flows.
7. Automations & Alerts	• Voice: "Alert me when oil is below 5" • Text: "notify me on low sugar" • Text: "workflows" or "alerts"	Creates AI threshold rules that automatically trigger WhatsApp notifications when inventory levels breach the specified limits.

Urdu Commands & Operations Guide

Complete Pakistani merchant operations guide in Roman Urdu and Urdu script

Category (Shu'ba)	Commands & Spoken Examples	Urdu Description & System Action

اردووائس نوٹ بولنے کی چند آسان مثالیں:

سیل: «دو کلو چینی کیش» ،نیا مال: «بیس کلو چاول آئے ہیں» ،اسٹاک: «چینی کتنی ہے» ،کھاتہ: «ریپورٹ بھیجو»

Merchant Best Practices & Technical Reference

Voice recording tips, multi-channel payment matrix, and troubleshooting

[TIPS] VOICE NOTE RECORDING ADVICE

- Speak naturally: "2 kg chini cash" or "do kilo chawal easypaisa".
- Noisy bazaar conditions: Hold the phone mic close. Groq Whisper handles background market noise robustly.
- Mixed language: You can freely mix Urdu and English (e.g. "5 milk jazzcash pe becha").
- Dialects: Optimally tuned for Pakistani retail accents.

[SYNC] REAL-TIME DASHBOARD TELEMETRY

- Zero page refresh required: The web dashboard uses Socket.IO WebSocket telemetry.
- Sales, inventory increments, low-stock warnings, and store renaming reflect in under 150ms.
- Multi-user access: Cashiers and store owners can view dashboard simultaneously while messages arrive.

PAKISTANI PAYMENT METHODS & DIGITAL WALLETS CATALOG

Category	Provider / Channel	Activation Command	Status & Description
Cash	Cash on Hand (Naqad)	Default active	Primary store currency
Digital Wallet	Easypaisa (Telenor)	"enable easypaisa"	QR & mobile number payments
Digital Wallet	JazzCash (Mobilink)	"enable jazzcash"	USSD & wallet transfers
EMI Wallet	SadaPay	"enable sadapay"	Fast debit card / IBAN transfers
EMI Wallet	NayaPay	"enable nayapay"	Merchant digital payments
Instant P2P	Raast (State Bank)	"enable raast"	Instant zero-fee banking
Islamic Bank	Meezan Bank	"enable meezan"	Shariah-compliant banking
Commercial	HLB / UBL / Alfalah	"enable hbl" / "ubl"	Major Pakistani banks
